

6.B. SOCIAL ACTIVITIES OF PROF. DR. MATTI RAUDJÄRV

(main activities)

2013–2019

Responding to the national call “100 oaks” related to the celebration of the 100th anniversary of the Republic of Estonia worked out as follows – most of the plants grown from 70 acorns (a minor part of acorns and sprouts was unfortunately lost to wild animals or just failed to grow) were taken – given as a gift – to many places in Estonia:

- Young oaks were planted in the venues of the conferences of economic policy at Värskä and Jäneda, also in the green area of the Kaasiku forest farm (country home – summer home) and also given as a gift to the neighbouring farm;
- In spring 2019, young oaks were given as a gift and planted to the gardens of homes and summer homes of several other friends but also additionally to the lands of the Kaasiku farm.

2016 – to date

European Scientific Journal (ESJ) of ESI (European Scientific Institute, based in Rome), International Editorial Team, Editorial Board: ESJ – Editorial Committee (member and peer reviewer since 26.03.2016)
